Galgotias College of Engg. Technology,
1, Knowledge Park-II, Greater Noida

Two Day National Seminar
On
“ADVANCEMENT IN SEMICONDUCTOR
DEVICES, ANTENNA, POWER CONTROL
AND NETWORKS FOR ENGINEERING
APPLICATION”
FEBRUARY 25-26, 2016

Sponsored by
Department of Science and Technology,
Ministry of Science and Technology,
Government of India

Organized by
Department of Instrumentation & Control Engineering
The Galgotias College of Engineering and Technology (GCET) was established in year 2000, by a team of committed professionals and academicians, under the dynamic leadership of Shri Suneel Galgotia, Honorable Chairman of the Galgotias Educational Institutions (GEI). GCET is approved by AICTE Ministry of HRD, Government of India and affiliated to Dr.APJAKTU, Lucknow, U.P. GCET has emerged as a premier centre of technical education in NCR and Northern India and is known for its excellence. GCET attracts the best students at admission time and its students attain merit positions in UPTU regularly. GCET’s placement record is exemplary with students finding jobs with organizations such as HCL, L&T, TCS, Infosys, Satyam, Wipro etc. The college enters the hall of fame for its commitment to education.

The Department of Instrumentation & Control Engineering has been playing a vital role in producing industry level technologists & scientist of highest caliber to cater to the ever challenging needs of technical excellence in all areas of Instrumentation & Control Engineering ever since it was established in the year of 2009. The department comprises of a group of highly qualified, diversified and motivated faculty members who are committed to provide quality education along with the development of talents and skills. The faculty of the department has been constantly carrying out research on many cutting edge technologies and regularly publishes papers in renowned national and international journals of repute.

This national seminar emphasizes a track of quality R&D updates from key experts and provide an opportunity in bringing new techniques and horizons. This seminar will be an ideal platform for experts and young researchers to dispense their research findings in the wide area of interdisciplinary science and technology. Invited sessions will help in motivating the research scholars and students to opt for career in these areas. The seminar comprises of lectures and discussions by the top experts from academic, institutes and industry.
